Uniform Fitting Guidelines

Each team has been provided with a large range of uniform sizes and there is enough variety to properly fit a team.

Soccer Express and the Uniform and Equipment Team have come up with the best way to fit teams properly:

- Wait until the players are together before you hand out jerseys, shorts and socks to your team. This is crucial to fitting your team properly.
- Do not hand out uniforms to individual players before gathering the team. It is better to deal with the team as a group to ensure a consistent approach.
- Have the players in a row, tallest to shortest. Hand out uniforms by size and not number.

The Club will only provide new jerseys, shorts or socks if a player fits **at least two sizes outside the range of sizes provided for a team**. Only the coach or manager can request a new jersey. To submit a uniform request, please click on this link: <http://nvfc.ca/event?id=528>

The Club could not run without the volunteer coaches and managers. The Club thanks you for all your time and efforts.

Let's have a fantastic soccer season!
