

## Update Summary

### Small Sided Soccer Club Development Manual

#### Retreat Line Development Tool: (Approved 2015-08-22)

BC Soccer’s player development programming is built upon a “PLAYER FIRST” mentality. It is important that development tools, which enable players to develop stage capacities identified by Long Term Player Development (LTPD), are recognized and implemented in small sided programs and leagues across BC.

The retreat line development tool is recognized by BC Soccer to further assist with developing players social/ emotional, technical, physical and decision making abilities.

As soccer continues to evolve, it’s important that Canada’s young players evolve with it so that they too can maintain possession of the ball and move it up the field with a controlled, constructive build up starting from the goalkeeper.

Please see the chart below for implementing the retreat line from 2015 beyond.

#### Retreat Line - Active Start + Fundamentals

Season	LTPD Stage	Age Group	Game Format	Retreat Line	Status

## Retreat Line Procedure - Active Start + Fundamentals

The following age groups use the half way line as the retreat line: Under 6, Under 7, and Under 8.

The retreat line is initiated when the ball has gone out for a goal kick. All opposing players will 'retreat' to half field and cannot pursue the ball until:

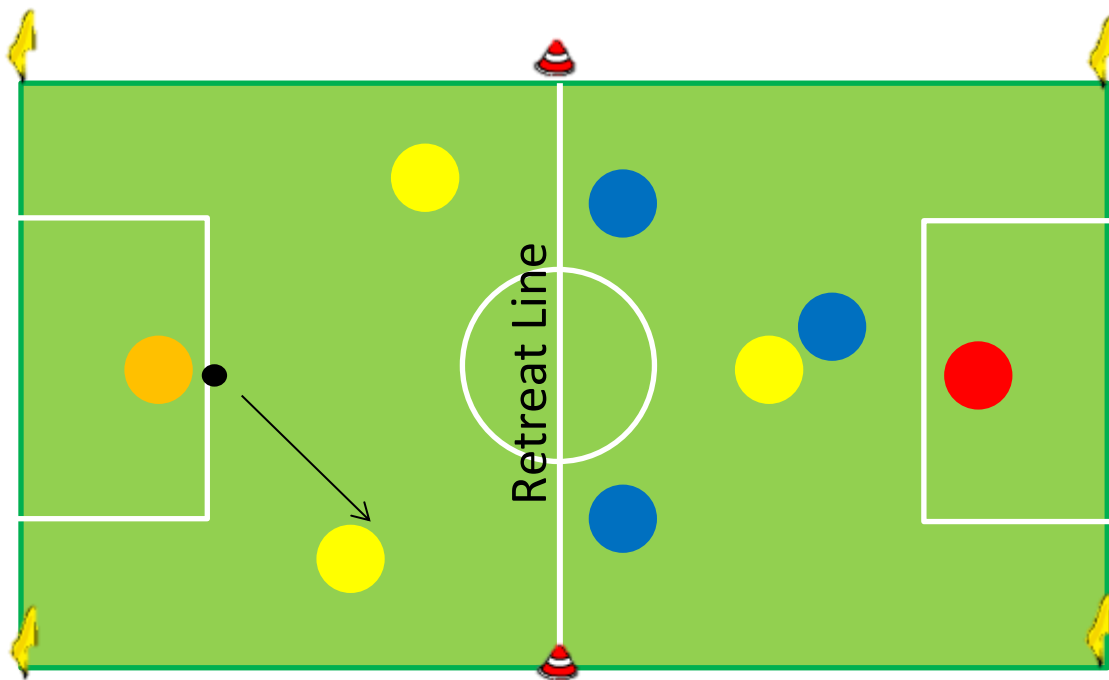

- The ball is received by a teammate OR,
- The ball travels over the retreat line OR,
- The ball leaves the field of play

If preferred, teams are always able to play quickly; the ball would be in play as soon as it leaves the penalty area regardless of the opposing team's position.

### Encroachment of retreat line:

If the defending team encroaches across the retreat line before an opposition player touches the ball then the referee blows the play stopped and issues a re-take of the goal kick.

If the opposing team repeatedly infringes the retreat line, an indirect free kick shall be awarded from the place where the offence occurred for not respecting the restart.

#### Making the Right Decision

Teams are always able to play quickly; the ball would be in play as soon as it leaves the penalty area regardless of the opposing team's position.

At times the correct decision is a quick or a long pass, players need to recognize the positions of the opposing team and act accordingly. If there is the opportunity to play quickly to create a counter attack or find a player in the middle third of the field - it should be encouraged!
